Mr. Takehiko Ishizuka

BWA Water Additives UK Limited
2 Brightgate Way, Stretford
Manchester M32 0TB
United Kingdom

Dear Mr. Ishizuka:

Chemicals of BWA Water Additives UK Limited & Toray's RO membrane elements

We hereby confirm the compatibility of chemicals to Toray's RO membrane elements as follows.

1. Chemicals and Membranes

- 1) Chemicals : Flocon135, Flocon150N, Flocon190, Flocon220, FloconPlus N
- 2) RO membrane elements
: BWRO and SWRO membrane elements

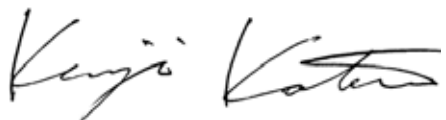

2. Conclusion

The chemicals listed above have not been shown to be harmful to the RO membrane elements listed above when used properly.

Toray does not take any responsibility for the performance of above listed chemicals as additives.

Toray's performance warranty for above listed membrane elements would not be voided by the proper use of above listed chemicals as additives.

Sincerely yours,

Kenji Kotera
Deputy General Manager
Technical Support Group
RO Membrane Products Dept.
